GROUP OF NEW CITIZENS OF VIRGINIA

This picture shows a group of ten immigrants received at the Department of Agriculture yesterday and assigned to homes in various sections of the State. Those seated in front are Belgian farm laborers and are fair specimens

of the able-bodied men who may be expected from that country. The others are from Scotland, from which place Mr. Kolner has been receiving laborers and domestics since his first trip abroad. On his recent expedition, he went

into Belgium for the first time, and met with much success. Mr. Kolner is highly pleased with the first installment from Belgium, and declares that he expects a steady flow of immigrants from that country during the fall and winter.

NEW STATION TO BE OPENED TO-DAY

Mayor, Chief and Members of Police Commission to Make Short Talks.

TO REMOVE CALL APPARATUS

Will Be Placed in City Hall Below Chief Werner's Office.

The new station-house of the First Police District will be thrown open to inspection from 5 to 8 o'clock this evening, and the public are cordially invited to witness the opening ceremonies of what is said to be one of the finest buildings of its sort in the South. Thereafter, beginning with 7 o'clock to-morrow morning, the station will be opened only to those who, by their violations of the law and ordinances of the city, are compelled to enter and remain for the night within its precincts.

The ceremonies this evening will consist of speeches by Mayor McChesney, Chief of Police Werner and members of the Board of Police Commissioners. Refreshments will be served, and the evening will be made as pleasant as possible. At the same time Chairman W. C. Duke, of the committee on automobile patrol, will turn over to Major Werner the automobile patrol.

The new station-house is a splendid structure of two stories. The upper floor contains a large assembly room for the men to lounge in while off duty or waiting to go on their beats, a finely-equipped bathroom and showers, a women's cell, a juvenile cell, the matron's room, a wardrobe containing twenty-nine lockers (to be increased to fifty), a gymnasium and the necessary accessories.

On the first floor is the captain's office, with the sergeant's office immediately opposite, the main office, a bathroom, a large cell, containing eight cells, and a large cell for minor offenders. In the rear is the patrol house, which will afford accommodations for the police mounts, the patrol horses and wagons and the automobile patrol. The first room is just above the second floor. The First District has now eight horses, a patrol wagon and an automobile patrol.

The new station is constructed so that the patrol wagon and automobile may drive up to the left side and deposit the prisoners at the main office, and coming out, drive right to the cells and take the prisoners from them, ready for transportation to the Police Court.

Long Desired Improvement. With the constant idea of perfecting the Police Department as far as possible, Mayor Werner has gained the consent of the Council and Board of Police Commissioners to have all the patrol electric apparatus taken from the Second Police Station and installed in this City Hall just beneath his office. This is a long-desired improvement and one of the best that could be made in the department.

When it is known that, by means of the patrol call-apparatus, a policeman is calling the station every two minutes, it may be seen that a convenience it would be for the Chief to be in immediate communication with his whole department.

Just below his present office, he would be in immediate command of the situation. In case of emergency and a sudden need of officers at one point, the Chief could be placed in communication with his whole force, ready to send every man necessary to the point. Should he have need to communicate with any man on the force for other purposes he could do so from his own

office, as his telephone would be connected with the electric call contrivance below. In short, he would be in absolute command of any exigency that might arise and have the satisfaction of knowing that he would always be on hand.

The present machinery will be amplified when installed in the City Hall. It will have two desks, with their machinery, instead of only one, as now; so that if one were out of order, the other could be switched on. Work will be performed with three reliefs of eight hours each. There are 802 calls from the police every twenty-four hours, or about 9,000 a month, a call coming in every two minutes. If need be the police could be made to call in every minute.

Major Werner is very desirous of having a matron at the new station-house. The new building is supplied with everything else, including rooms and conveniences for the matron, but he has not yet secured the matron. The Board of Police Commissioners will probably soon appoint one.

SONS OF VETERANS

Discuss Recent Reunion and Then Adjourn for Summer. R. E. Lee Camp, Sons of Confederate Veterans, met last night at Lee Camp Hall, Commander E. B. Thomson presiding. One new member was enrolled, Mr. Ernest Bates, of Richmond. Several applications for membership were received, and according to the rules of the camp will lay on the table until the next meeting.

Commander Thomson thanked the members of the camp for their services during the reunion. Upon motion the camp adopted resolutions thanking Miss Amy Werth, of Richmond, who acted as maid of honor at the reunion, and the members of the Sons of Confederate Veterans.

Captain E. Leslie Spence, Jr., made a complete report of the work of the Sons of Confederate Veterans, and the reading of the report of Mr. Spence were the written reports of the various committee chairmen, who rendered such effective work during the summer, to hold their next meeting on the second Monday in October, unless previously called by the commander.

COURTESY NAMED

Chairman Doherty Appoints Those Who Will Conduct Reunion. Chairman Doherty yesterday gave out the following subcommittee, who will conduct the reunion of the Sons of Confederate Veterans, at Murphy's Thursday night. Table No. 1—C. V. Carrington, M. McQuirk, W. E. Taylor. Table No. 2—J. G. A. Montague, S. C. Shultz, James B. Phillips. Table No. 3—Stanley B. Tyler, H. W. Stone, A. W. Browning. Table No. 4—C. V. Carrington, M. McQuirk, W. E. Taylor. Table No. 5—Clifton B. Miller, S. S. Rooden, W. A. Sharp. Table No. 6—W. Arthur Evans, William B. West, Samuel Steiner. Table No. 7—Barney Bowman, John B. Welch, R. B. Munford, Jr.

Other legislative candidates who have made their names of primary expenses are as follows: Colonel E. C. Massey, \$119.61; John J. Blake, \$98.85; Robert N. Pollard, \$79.70.

INCREASE IN POPULATION

Partial Census Shows City Will Have About 110,000 People. Up to the present time the work of taking the census, being done by "Connie" Johnson and his corps of assistants, shows the city to have 110,000 population, which is an increase of 25,000 over the last census taken.

The working of taking the census was started three weeks ago. It has been completed in four wards, almost done in one half the city, and is nearly finished in the other two. Clay Ward has between 15,000 and 20,000; Marshall Ward between 10,000 and 15,000; Henry Ward nearly 15,000, and Lee Ward between 10,000 and 15,000. This leaves Monroe, Madison and Jefferson still to be heard from.

Public Schools Exhibit. Mr. Albert H. Hill, assistant superintendent of the city public schools, returned yesterday from the Jamestown Exposition, where he has successfully installed the exhibit of the city public schools in a prominent place in the schools' exhibit in the left wing of the auditorium.

Miss Burdick, of Richmond, is in charge of the Richmond exhibit, and all Richmonders who attend the exposition are invited to call and inspect the work of their own children, at the display of which the parents of Richmond would probably be the most astonished.

LOVING CUP FOR SERGEANT BROOKS

Services of Popular Officer Recognized by Police Benevolent Association.

SPEECH BY PRES'T MORRIS

Annual Picnic to Be Held July 24th at the Fair Grounds.

Sergeant Robert J. Brooks was called last night before the board of directors of the Police Benevolent Association and presented with a handsome silver loving cup in token of the unselfish services he has rendered to the association. It is said of Sergeant Brooks that he has achieved more and secured more life subscribers to the association than all the other members combined, and it was in recognition of his unusual effort in its behalf that the token was last night bestowed.

The presentation was made by Mr. L. Z. Morris, president of the association, who, in a short speech before the members present, spoke in the highest praise of Sergeant Brooks, and said that more was owing to his effort than to any other man or to any set of men combined.

He thought it fitting, therefore, that his services should be recognized while he was yet alive to hear and receive the commendation of his fellows, rather than to wait until after he was gone and then say of him that he had lived well and that he had been a good and faithful servant. In view of this, the board of directors had decided to present him with some token which he could have with him always as a remembrance that his good deeds had been recognized during his life and that his fellows had seen fit to be and faithful servant.

Sergeant Brooks replied in a few appropriate words, thanking the directors for their kindness, and assuring them that their words of praise were more dear to him than even the cup itself.

The token was inscribed with the following legend: "Presented to Sergeant Robert J. Brooks by the board of directors of the Police Benevolent Association, July 8, 1907."

Sergeant Brooks has collected nearly \$2,000 within the past fiscal year of the association, and this is but an example of what he has done in previous years.

The association has now five members on its pension list—Sergeants Hall, Thomas and Allen and Privates Burnett and Harrison.

After the presentation ceremony the committee on a date for the annual picnic reported that it had selected July 24th as the date and recommended that the picnic be given in the Fair Grounds. The report was adopted.

Employee Scolded. One of the employees of the Richmond Locomotive Works named Johnson was badly scolded at the shop yesterday afternoon. He was taken to the Virginia Hospital where it was stated last night that his burns were not of a serious nature.

HARMONY AGAIN IN T.P.A. RANKS

Resolution Creating Friction Withdrawn and Expunged from the Record.

DISCUSS QUESTION OF HOME

Several Places in View, but No Final Action Is Taken.

A special meeting of Post A. of the T. P. A. was held last night, and it was in the nature of a love feast, in contradistinction to the last, one when fiery utterances were made concerning things which took place in the national convention at Norfolk. It will be recalled that Mr. J. L. Hill offered a resolution criticizing the action of certain local delegates to the convention, and that this provoked an acrimonious debate, which resulted in the tendering of several resignations, including that of President R. S. Christian. The meeting adjourned with the disputants far apart and with considerable feeling in their breasts. Shortly thereafter the chaplain of the post, Rev. Dr. J. J. Gravatt, called a conference of the disagreeing parties, poured oil on the troubled waters, secured apologies from one to another, and as a result the whole matter was expunged from the record last night by a unanimous vote.

There was no discussion of the affair, and it took but a few moments to dispose of it. As soon as President Christian called the meeting to order, Mr. Hill was recognized, and referring to the meeting at which he had offered the criticizing resolution, and the conference with Dr. Gravatt, which had followed, he moved a reconsideration of the matter.

This was adopted and the resolution withdrawn. Mr. Hill then said: "I move to expunge the resolution from the record, and I hope we will let bygones be bygones, and live again in peace and harmony." His motion was adopted, and the post settled down to business, as though there had never been a brush.

Mr. R. W. Spillman, from the committee on premises, made a report, the gist of which was that there are several places under consideration, but that the house had not yet determined upon either of them as its new home. Smithfield Hall, the Chamber of Commerce, Murphy's Hotel and private residences on several streets, including Broad and Grace, were reported upon by the committee, and finally the committee was continued and requested to bring in a further report.

Chairman Horace F. Smith, of the committee on the proposed Bureau of Information and Commercial Exhibits, made a most interesting and encouraging report, which he stated that his committee had that from the Retail Merchants' Association had brought the project to a point where it is fully assured. Mr. Smith exhibited contracts secured from seventeen business houses, and he declared that they had been secured without the slightest trouble, and during a part of two afternoons. He declared that these had been gotten from men in nearly all lines of business, simply to show how the people were taking hold of the project, and how easy it was to get the contracts signed. It is believed that the bureau is now a certainty, and that the two committees will in a short while raise the \$5,000 which is necessary before any of the contracts are binding. The scheme is proving a most popular one already, and business people who are behind it declare it will be a great thing for Richmond business.

NEGRO HELD IN RICHMOND

Frank Allen, Charged With Criminal Assault, Brought Here for Protection. Frank Allen, charged with criminal assault, is being held in the City Jail on the charge of having attempted criminal assault on Mrs. Harvey Callis near South Hill, Mecklenburg county, early last week. Allen's trial has been set for July 20th, when Judge Barkdale will hold a special term of the court.

The prisoner was brought here last Wednesday on account of the temper of people near the scene of the attempted assault, where the rioting is said to be very intense.

MISSIONARY UNION

Women Meet at Union Station Church on Thursday. The Woman's Foreign Missionary Union of the Richmond district will meet at Union Station Methodist Church on Thursday. The annual sermon will be preached to the women of the district by Rev. J. J. Gravatt. In order to allow their congregations to attend at Union Station the pastors of Trinity, St. James, Hooker Memorial and Fairmount have decided to hold no services on Wednesday night.

OFFICERS HOT ON TRAIL OF NEGROES

Governor Offers \$100 to Help Catch the Goochland Jail-Breakers.

BUSY DAY AT THE CAPITOL

Hot Weather Does Not Interfere With Progress of State's Business.

Governor Swanson spent yesterday in his office, at the Capitol, and received a large number of callers. His Excellency had been absent several weeks at the Jamestown Exposition, and though the weather was torrid, he remained at his desk until late in the afternoon, cutting up with his correspondence, which had accumulated to some extent.

Among the interesting matters taken up by the Governor was the request of Judge A. X. Monteiro, Commonwealth's attorney of Goochland, for a reward for the capture of the two negroes who recently broke jail in that county and made their escape. The Governor supplemented the reward of \$100 offered by the county, making the sum \$250 in all. The county of Goochland put up \$200, and the sum of \$450 was contributed by private parties.

Strenuous efforts are now being made to recapture the fugitives, who are regarded as a bad lot. The negroes are Eugene Davis and William Freeman. The former is charged with murder and the latter with arson.

Officers Return

Attorney-General William A. Anderson was in his office in the Library Building, yesterday, having returned from a tour of inspection of the behavior of the State Highway Commission. Major Anderson was at his desk busily engaged with the work of his department, which is quite heavy at the time.

Assistant Attorney-General Robert Catlett, who has been ill for some time at the Memorial Hospital, is able to be out, and has gone to the county for a week or ten days to recuperate. Though now a resident of Rockbridge, Colonel Catlett is a native of Charlottesville, and in former days represented that county in the Legislature. Hon. George W. Kolner, Commissioner of Agriculture, is expected to return from Europe for the first time since his return from Europe. Mr. Kolner is in good health and spirits. He is warmly greeted by his friends and associates about the Capitol.

State Highway Commissioner P. St. John Wilson is in Augusta county, where he went to see to it that the highway, in connection with roads now being built in the valley. Capt. William A. Anderson, who is in charge of the department, is making, and they say they will be able to make a good showing before the next Legislature, when additional laws in furtherance of the new system will be proposed.

Falls Church Case

The Corporation Commission is in receipt of numerous letters and petitions concerning the recent accident on the Washington, Arlington and Falls Church Railway Company, and the subject of the case will be set for an early date. Commissioner Joseph E. Willard, who was a special auditor to the subject of railway equipment, said yesterday:

"The commission will possess itself of all facts in the case and take such steps as these facts and circumstances seem to justify. The original case of the Commonwealth at the relation of the Corporation Commission against the Washington, Arlington and Falls Church Electric Railway is still on the docket of the commission, and the commission is free to issue such supplemental orders in this case as may seem right and proper."

Military Men Out

Governor Swanson has accepted the resignation of Captain Thornton F. Jones, Company D, Seventy-first Regiment, Hampton. Captain Jones resigned because of his private business.

The resignation of Second Lieutenant Francis W. Jones, Company D, Seventy-second Regiment, Petersburg, has been accepted. Elections have been ordered to fill these vacancies within thirty days.

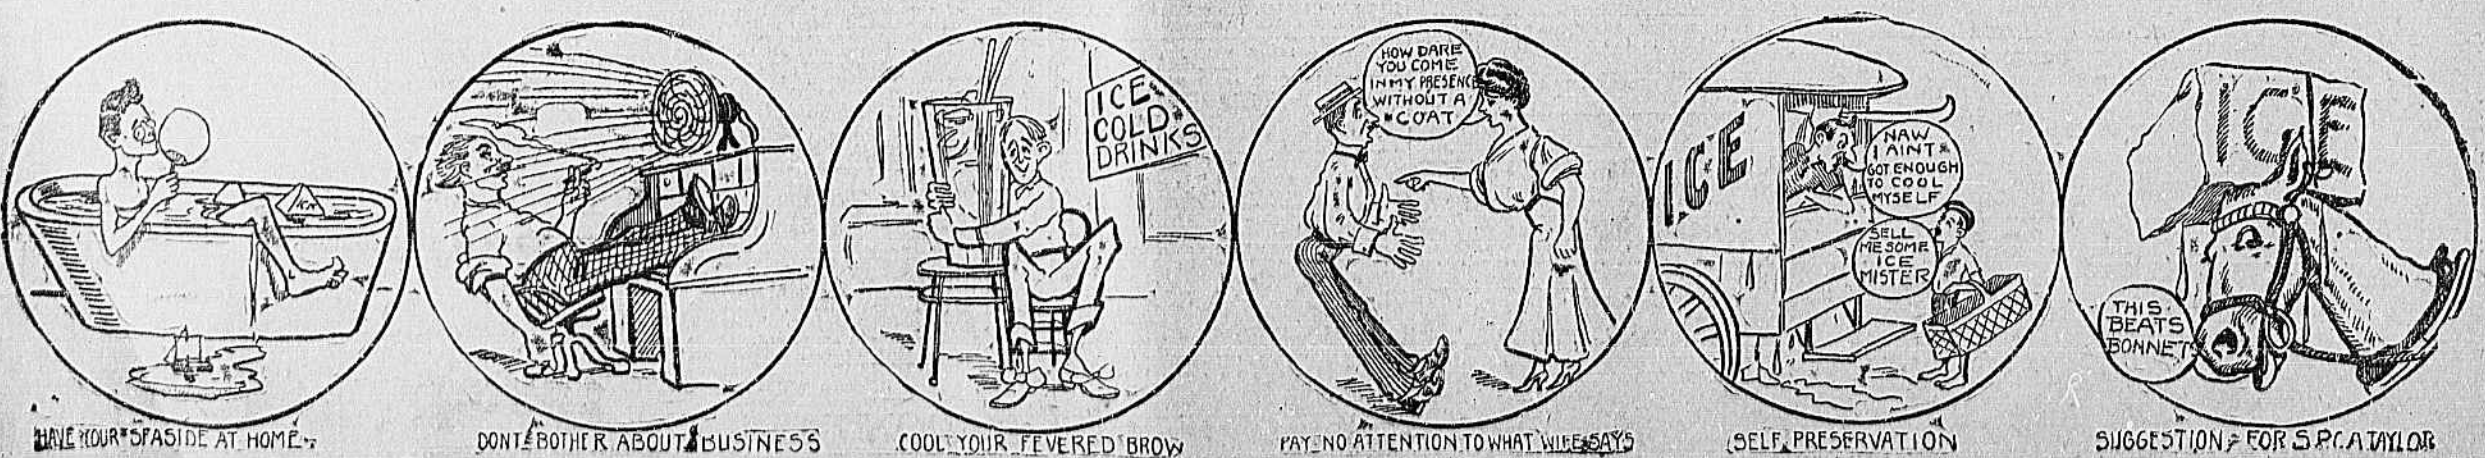

Permission has been granted to Troop A, Maryland National Guard, to enter the State and to go on a practice march for ten days from August 10th to August 20th.

Samuel J. Harrison, second lieutenant of Company D, Seventy-first Regiment, Richmond, having passed a satisfactory examination for commission his credentials will be forwarded to him within a day or two.

Stray Cow Killed

A stray milk cow was run down and killed by a shifting engine on Chesapeake and Ohio Railroad tracks at Hospital and Seventeenth Streets yesterday afternoon at 2 o'clock.
